

FEBRUARY IS HEART AWARENESS MONTH

Taking Care of Your Heart During Your Cancer Journey

Heart health should be a priority for everyone. Cancer survivors have even more reason to be vigilant and many have some specific concerns regarding previous treatment or strategies moving forward.

You are invited to join us at this special interactive discussion with local expert Mark Ginkel, MD, Director of Cardiovascular Service at Marian Regional Medical Center, to get answers to your questions and hear the latest information.

Wednesday, January 31 • 5:30 p.m.

Interactive session featuring: Mark L. Ginkel, MD, FACC

Mission Hope Cancer Center, Conference Room

1325 East Church Street, Santa Maria

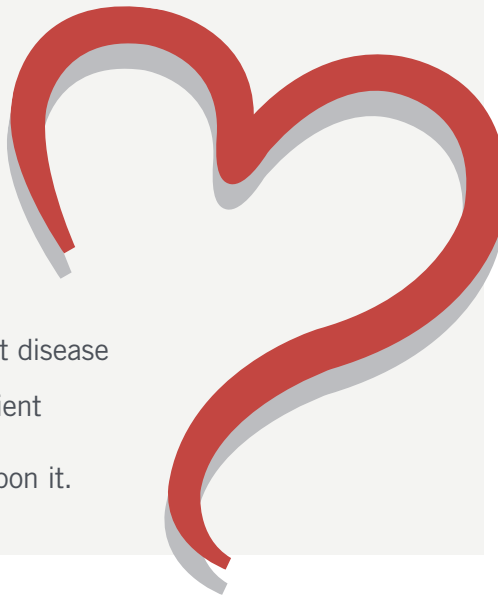

Seating is limited and reservations are required.

Please call Mission Hope Cancer Center at 805.219.HOPE (4673).

TOPICS OF INTEREST TO CANCER SURVIVORS:

- Chemotherapy drug effects on the heart
- Should cardiac health be addressed differently for the cancer survivor?
- Hypertension and the cancer patient
- Aspirin and/or statin protocols—anything different during survivorship?
- Radiation around the heart area and heart disease
- Cardiac stress testing and the cancer patient

Get the facts! Your heart health depends upon it.

Mark L. Ginkel, MD, FACC
Board Certified Cardiologist

■ Dr. Ginkel has been a practicing cardiologist since 1996; his primary focus is general cardiology with an emphasis in invasive/interventional cardiology and pacemaker implantation.
