

JANUARY IS CERVICAL CANCER AWARENESS MONTH

# Art and Cancer Awareness Event for Women

FREE  
Community Event

**Christopher Lutman, MD, FACOG**  
Gynecologic Oncology

You are invited to attend an interesting evening of fun and important information about cervical and ovarian cancers. Cervical cancer is almost always caused by the Human Papilloma Virus (HPV) and HPV infections are the most common sexually transmitted infections in the United States. The good news is that vaccinations and appropriate screening tests can minimize risk. In contrast, there is no screening test to detect ovarian cancer. It is vital to know your body and recognize the early symptoms of the disease. Get the facts on the latest research and strategies for health; your questions are welcome.

**Cristina Martins Sinco**  
Ovarian Cancer Advocate/  
Educator

- **Understanding Cervical Cancer and HPV**

Christopher Lutman, MD, Gynecologic Oncologist

- **Learn about the work of the Teal Journey Ovarian Cancer Foundation**

Cristina Martins Sinco, President & Co-Founder

- **Participate in a fun art project**

This event will include a fun hands-on craft project. Crafting together is something that can be both therapeutic and empowering. Join us for an evening full of learning and laughter.

The mission of The Teal Journey Ovarian Cancer Foundation is to promote awareness, aid in early detection, and educate on the symptoms of ovarian cancer.
