

Are you experiencing unwelcome changes to your hair, nails or skin as you undergo cancer treatment?  
You can still be yourself!

# Look Good, Feel Better

The Look Good, Feel Better program is dedicated to helping women look and feel as good as possible even during chemotherapy, radiation, or other treatments. Sign up now for this fun class to receive a complimentary cosmetic kit to get started learning skin care and make-up techniques.

While most treatment-related changes in appearance are temporary, we believe it is important to provide women with tips and techniques that will help them look—and feel—better today! Personal Care Products Council-member companies donate all of the products used in brand-neutral packaging. Step-by-step instructions are given in groups as trained cosmetologists teach how to do everything from drawing eyebrows to concealer tricks while in the supportive company of other women who are going through the same cancer experience. Join us to look good and feel even better!
