

FREE EDUCATIONAL WORKSHOP

# Clinical Trials: Improving Care for People Living with Cancer

Jessica Salamacha, BS, CCRC, NRCMA, via Virtual/Zoom Meeting

**Wednesday, October 20, 2021**  
**2:00 p.m.**

To register for this Zoom meeting, please call 805.346.3462

**Jessica Salamacha, BS, NRCMA**  
Clinical Research Coordinator

Jessica has over 10 years of experience in healthcare specializing in clinical research. Her mission is to educate patients about clinical trials and to support oncology patients and their families through their journey to ensure they feel safe and confident in their treatment plan while on a clinical trial.

**Do you have questions about clinical trials? Are you concerned about their safety? Have you considered participating in a clinical trial?**

Many of today's successful cancer medications and procedures began as clinical trials. Though clinical trials can provide many benefits, they are often misunderstood. Please join us for a virtual meeting on Zoom to hear directly from our Clinical Research Coordinator, Jessica Salamacha, BS, NRCMA, as she discusses the following points:

- What clinical trials are
- Why they are important
- How to determine if a clinical trial is right for you
- What clinical trials are available at Mission Hope Cancer Center

**Mission Hope Cancer Center is proud to offer over 100 clinical trials to our cancer patients.**
